made easy**

# Rinkel

## partner

## introduction

**Jeroen van Vierzen**  
CEO and co-founder Rinkel

Thanks for your interest in the partner program! We created this program in 2020 to help partners provide business telecom to their customers.

Our customers are entrepreneurs and small businesses. We ourselves are entrepreneurs at heart. That's how we started Rinkel in 2014 and we still believe: as an entrepreneur, you want to focus purely on your dreams and goals, not on difficulties. Therefore, with us, no fuss, unclear processes or uncertainties.

That goes for our clients as well as for our partners.

# Rinkel delivers

a simple story

We help entrepreneurs and teams to speak to their customers in a professional manner anywhere, anytime. klanten te woord te staan.

## the new business telecom solution

All the conveniences of desk phone without the landline. We transfer the business number to a mobile number. This enables all business functionalities on the mobile phone.

## cost reduction

Besides the fact that Rinkel is priced competitive, you don't need an extra SIM or 2nd mobile. Save twice as much money!

## work - life balance sorted

Work-life balance is a challenge for every entrepreneur. With Rinkel's handy features, you arrange this easily, without losing business opportunities.

## mobile app

Manage all your functions at the touch of a button and make calls with your business number via the mobile app.

## forwarding

Forward calls according to a fixed pattern. Or transferring an incoming call to your colleagues or other departments has never been easier.

## webphone

Simply start your call from your PC or laptop with one click on the screen. Also directly from other applications or websites.

## Whatsapp business

Do you have customers who prefer Whatsapp? Connect your landline number to WhatsApp Business for free.

## audio message

Multiple incoming calls are queued with a message and hold music. Or transferred to the next available colleague.

## queue

Multiple incoming calls are queued with a message and hold music. Or transferred to the next available colleague.

# features

## AI

Generates automatic summaries and topics based on your conversations.

## call recording

Listen back to all your calls.

## integrations

Enrich your CRM with accurate call data.

## IVR menu

Connect your caller directly to the right person or department.

## business hours

Enable features of incoming calls at programmed timeslots.

# partner program

Receive additional revenue and extra value for your clients: offer Rinkel at a discount or receive a compensation per newly introduced customer.

Our common goal:  
**help the busy entrepreneur**

The partner program is supported with:

- ✓ a trusted solution for your customers
- ✓ additional revenue from your customers
- ✓ sign-up within 2 minutes

Join us in developing the telephony of the future.

# 15.000+ users about Rinkel

## Djunes

★★★★★

Convenient tool to use a business number on different mobile devices.

## Airco One

★★★★★

Rinkel simply works :)

## Pointer Advies

★★★★★

Very satisfied since the start of our company with 2 users, now with more colleagues. IVR menu works well. Much more personal than one of those remote 'telephonists' who always Also if we have questions etc.
